Own resources, flexible solutions: a service you can count on

Fully integrated European network

Hupac's network covers the entire continent with daily trains. Focal points are the economic areas in Germany, northern Italy, Belgium and the Netherlands. From there, dozens of trains connect peripheral and emerging markets such as Spain, France, Scandinavia, Poland, Switzerland, Austria, south-east Europe and Turkey.

Dedicated terminals

Our network is based on efficient terminals managed or co-managed by Hupac. The main locations are north Italy, Antwerp, Rotterdam, Duisburg, Ludwigshafen, Singen and Brwinów. Terminal projects are located in Duisburg DGT, Basel Nord, Brescia, Milan, Piacenza.

Own railcars

Hupac operates a fleet of 9,100 wagon platforms for all types of loading units, which offers clear advantages in terms of independence, flexibility and reliability.

Expert teams in Switzerland and Europe

Our teams based in Switzerland, Italy, Belgium, the Netherlands, Poland, Spain and China are available to assist you with all your needs and ensure you enjoy a full service experience.

Selected rail partners

Hupac supports rail liberalization and chooses the optimal rail partner for each relation. Our more than 20 rail partners are the best-in-class in their regional market. We believe in long-term partnerships and strive for efficient and reliable processes.

Prepared for contingency management

A fleet of reserve train sets, own locomotive drivers ready to step in when needed, an extensive network offering a variety of alternatives, a 24/7 traffic control team supported by AI planning tools – that's how we keep the traffic moving even in tough times.

Digital services to make intermodal easier

Hupac is at the forefront of the digitalization of intermodal services. Easy booking, seamless track & trace, machine-to-machine data exchange, digitally supported terminal processes, estimated time of pick-up is the minimum you can expect.

Technical support

We provide all the technical advice you need to ensure that your vehicles are compatible with the requirements of combined transport.

Dedicated terminals to ensure handling capacity
